Electricity

Period: 1st May 2025 to 31st May 2025

Your electricity charges for this period £54.89

Total charges for this period £54.89

Your new account balance £79.18 to pay

About your payments

You pay by monthly Direct Debit. There is nothing you need to do at the moment.

If you are on a fixed direct debit, we will let you know if we think the amount needs amending in accordance with your actual usage.

Unless you are on a Smart Meter, please remember to submit regular readings so we can keep your bill as accurate as possible.

Your Electricity Charges

Period: 1st May 2025 to 31st May 2025

Electricity Reference: 87654321

Meter		Period	Energy used	Price per kWh	The cost to you

Is this tariff right for me?

Your tariff is **Energy Local Club Matched Rate**. Good news, you are buying 100% renewable energy and you are on our cheapest relevant and alternative tariff.

If this changes we will tell you at least once a year.

Remember - it might be worth thinking about switching your tariff or supplier.

Switching to an alternative tariff may involve changing terms and conditions and may be subject to eligibility criteria.

Your personal projection: If you remain on the same tariff and continue to use energy in the same way, we forecast that your annual expenditure will be £0. This is based on our current tariffs and includes charges such as discounts and VAT.

How can I use less energy and reduce my bill?

We're full of ideas to help you cut your bills while cutting your carbon emissions at the same time.

We can explain all the options open to you to enable you to make informed decisions on how you would like to heat and power your home. We can also offer advice on cutting costs and emissions at your place of work.

If you would like to have a chat just give us a call on **01920 486156**

Our fuel mix Our electricity is 100% renewable and our gas is 100% green. By choosing to buy sustainable energy, you're helping to make the UK a better place right now – and for the future.
